En caso de que en el interior de la zona de distribución autorizada, existan áreas con consumidores potenciales del gas natural cuyas instalaciones receptoras estén situadas a una distancia superior a 150 metros de la canalización más cercana de la red existente desde la que pueda prestarse el suministro en las debidas condiciones de calidad, DICOEXSA quedará obligada, en el momento en que reciba la primera petición de suministro en una de estas áreas, a extender su red de distribución para gasificar la totalidad de la misma, sin que dicha extensión suponga coste alguno para los usuarios solicitantes, asumiéndose la infraestructura íntegramente por la Empresa, sin perjuicio de las cantidades que deban ser abonadas por los solicitantes de suministros en aplicación del régimen de acometidas establecido en la legislación vigente.

El desarrollo de la red de distribución en los casos indicados deberá ser integral, debiendo efectuarse el diseño, dimensionado y ejecución de las canalizaciones necesarias para atender tanto el suministro o los suministros solicitados que den origen a la actuación, como el de aquellos otros consumidores potenciales que se encuentren en la misma área, de forma que

las acometidas que deban ser establecidas para atender a cualquier consumidor cuya instalación receptora se encuentre en el área en cuestión, tengan el trazado más corto posible, dándose así cumplimiento a lo establecido en el artículo 27, apartado 2, del Real Decreto 1434/2002, de 27 de diciembre, por el que se regulan las actividades de transporte, distribución, comercialización, suministro y procedimientos de autorización de instalaciones de gas natural, que determina el desarrollo de las acometidas atendiendo a criterios de menor distancia a la red de distribución o de menor coste, y a lo dispuesto en el artículo 74, apartado 1.d) de la Ley 34/1998, de 7 de octubre, del sector de hidrocarburos, por el que se establece que las empresas distribuidoras de gas natural estarán obligadas a ampliar sus instalaciones de distribución y facilitar las conexiones, en el ámbito geográfico de su autorización, en condiciones de igualdad, cuando así sea necesario para atender nuevas demandas de suministro de gas.

Cuarta. DICOEXSA, como empresa titular de la zona de distribución autorizada definida en esta resolución, queda sometida al cumplimiento de lo establecido en el Decreto 183/2014, de 26 de agosto, sobre procedimientos de autorización de instalaciones para el suministro de gases combustibles por canalización en la Comunidad Autónoma de Extremadura, debiendo cumplir las obligaciones que se derivan de lo dispuesto en dicho Decreto en todo lo relacionado con la zona de distribución y las instalaciones que formen parte de la misma.

Quinta. El incumplimiento de las condiciones recogidas en esta resolución, por la declaración inexacta de los datos o documentos aportados al procedimiento instruido o por cualquier otra causa que desvirtúe el objeto de la misma, podrá suponer su revocación, previa instrucción del correspondiente procedimiento administrativo.

Contra la presente resolución, que no pone fin a la vía administrativa, podrá interponerse recurso de alzada ante la Consejería de Agricultura, Desarrollo Rural, Medio Ambiente y Energía, en un plazo no superior a un mes, conforme a lo establecido en la Ley 30/1992, de 26 de noviembre, de Régimen Jurídico de las Administraciones Públicas y del Procedimiento Administrativo Común.

Mérida, a 30 de abril de 2015.

La Directora General de Industria y Energía,
CAROLINA GRAU FERRANDO
